

# SAFECARE Commercial Event INVITATION

## NOV 30 2021

Commercial Event

Online and Onsite  
event (Paris, France)

[Registration Link](#)

**SAFECARE**

*Integrated cyber-physical security for health services*

We are pleased to announce that the SAFECARE Consortium will hold its Commercial Events on 30 November 2021! Due to the particular circumstances, we have decided to host an online and onsite event.

As a participant, you will be able to learn about the final activities of the SAFECARE project.

Divided into Carousel stations, SAFECARE partners will be presenting their novel and cost-effective products to better protect critical health infrastructures, developed in the frame of the project.

The event will be chaired by Philippe Tourron, from the Assistance Publique – Hôpitaux de Marseille and Coordinator of the project.

**Please have a look at the agenda attached and register by clicking [here!](#)**

We look forward to meeting you!

Best regards,

The SAFECARE consortium
